#### **Member Services**

### **Member Services**

- Helpdesk
  - Phone hotline increasing use
  - Presence at APNIC and other meetings
- Response time
  - One day turnaround time on all requests
- Account management
  - 8 hostmasters, teams of two per account
  - More personal service
- Exchange and training visits
  - Dong Wook Shim, KRNIC (1 month stay)
  - Yuka Suzuki, JPNIC (Mar)

APNIC S

# Training

- 23 Courses during 2003
  - Total of 1081 trainees
  - Some cancellations due to SARS
- Core courses
  - Internet Resource Management I
  - Internet Resource Management II
  - Internet Resource Management Essentials
- Technical Courses
  - DNS Practical Workshop (2 day)
  - DNS Advanced Workshop (4 day)
  - IRR Tutorial with hands-on Lab (1 day)

# M APNIC

# **Training Collaboration**

- NIRs
  - Training offered at NIR meetings (ID, CN, TW)
- SOI-Asia, Japan
  - On-line video delivery trial
- AIT, Thailand
  - Training administration support
- intERLab, Thailand
  - AIT regional training centre

#### The Internet in Malaysia

Melayse is the host country for 17th APRIC Open Policy Meeting and APRICOT 2004. In this article, we look briefly at the growth and development of the Internet in Malaysia.

The story of the commercial internet in Malaysia began in 1990, when the Maleyseen Institute of Microalectronic Systems (MIMOS, nov MIMOS) Berhad) launched JARING (Joint Advanced Integrated Networking), the first Malaysian ISP. It was not unlik 1992, however, with the installation. of a satellite link between Malaysia and the US. that Matersian users gained easy access the Jonathi Internet

The Melaysian government has been an anthusiastic supporter of internet technology since the early natelies and has employed a range of policies to encourage Maleysian businesses to venture online. Rhas also invested in large projects such as the Multimedia Super-Conidor, a 50km area stretching north from the Kuele Lumpur International Airport which has attracted more than \$50 local and international 17 and communication companies.

Melevele's second ISP. TMNet, leurched in 1995. Since then, the market for both commercial and residential internet access has grown steadily. There are now seven ISPs within Meleyau offering both dial-up and broedband connectivity. and in 2002 there were an estimated 7.8 million Maleysian Internet users."

PIKOM, the Association of the Computer and Multimodia industry, Melaysia, has estimated that the ICT (information and communication fachnology) industry will grow to around RMS billion (US\$2.3 billion) in 2004. APNIC currently has 35 Maleysignmember organisations, including one Very Large and friee Large members.

Over the last low years, the Maleysian (Tindustry has locused on consolidating its domestic network infrastructure and investigating new developments, induking the emergence of IPv6. in 2003, three of the country's largest (SPs. MMOS Berhad-Jaring, Maxis Communications Berhad, and NTT MSC Sdn. Bhd. teamed up to establish My6, a working group which alera. to key the groundwork for IPv6 implementation in Maleysia. In October 2003, My6 organised the 1st ASEAN IPid Summit in Kusle Lumpur. which brought together IT professionels fromaround the region to discuss some of the taskes surrounding 1Pv6

Melaysia achieved one of its most significant internet méssiones in November 2003, with the astablishment of the Malaysia Internet Exchange. (MIX). The MIX is the first Internet Exchange tobe set up in Melaysia and provides a common backbone for all Meleysian ISPs, ensuring the robustness of the local Internet.

**Policy developments** 

Centre

#### **Policy Development Process**

### **Policy Development**

- EC endorsed decisions from APNIC16
  - prop-001-v001 Policy process modification
  - prop-002-v001 Documentation policy
  - prop-004-v001 Lame delegation cleanup revised
  - prop-006-v001 Supporting historical resource transfers
  - prop-007-v001 Privacy of customer assignment records
  - prop-008-v001 IANA IPv4 resource request
     procedures
  - prop-010-v001 Protecting resource records in APNIC Whois DB
  - prop-011-v001 IXP assignments

## **Policy Development**

- New/Modified proposals at APNIC17
  - prop-003-v002 Policy for mirroring on IRR
  - prop-013-v001 LIRs to manage multiple discreet networks under a single APNIC membership
  - prop-014-v001 A proposal to lower the IPv4 minimum allocation size and initial allocation criteria in the Asia Pacific region
  - prop-015-v001 Should APNIC allocate global unicast IPv6 address space to 'unconnected' networks
  - prop-016-v001 IPv6 allocations to IPv4 networks
  - prop-017-v001 Proposal to recover unused address space

#### **Financial Report**

#### **Finances**

- Financial reporting
  - APNIC books are kept in AUD, but reported in USD
  - •90% income in USD
  - •80% expenses in AUD
- 2003 exchange rate crash
  - Jan 2003 0.58
  - Jan 2004 0.75
  - Unexpected expense increase 16%
  - 2003 budget adjusted during 2003
    - Balanced at year end

R

APNIC

#### **Statement of Activities - Expenses**

Expenses (USD)	Actual 2003	Budget 2003	Budget $\Delta$	Budget ∆%
Exchange Rate (*)	0.6538	0.6502		0.6%
Administrative fee –ICANN contract	115,622	130,200	(14,578)	-11.2%
Donation/ contribution & sponsorship	17,110	46,000	(28,890)	-62.8%
Communication	139,823	155,274	(15,451)	-10.0%
Membership fees	31,712	87,108	(55,395)	-63.6%
Professional fees	274,106	301,597	(27,491)	-9.1%
Meeting, training expenses	70,014	71,251	(1,238)	-1.7%
Rent	191,427	189,649	1,778	0.9%
Salaries	1,660,573	1,622,509	38,064	2.3%
Other operating expenses	1,106,419	1,112,915	(6,495)	-0.6%
Depreciation	208,676	188,975	19,701	10.4%
TOTAL EXPENSES	3,815,482	3,905,477	(89,996)	-2.3%

APNIC 📎

## APNIC S

#### **Statement of Activities - Revenues**

Revenue (USD)	Actual 2003	Budget 2003	Budget $\Delta$	Budget ∆%
Exchange Rate (*)	0.6538	0.6502	he re-co	0.6%
Membership fees	3,409,078	3,436,773	(27,695)	-0.8%
Per Allocation fees	418,275	288,368	129,906	45.0%
Non-members fees	80,994	66,917	14,077	21.0%
IP resource application fees	351,845	334,241	17,604	5.3%
Sundry income	31,319	28,400	2,919	10.3%
Interest received	195,950	196,545	(595)	-0.3%
SUB-TOTAL REVENUE	4,487,461	4,351,245	136,216	3.1%
Foreign exchange rate gain / (loss)	(573,846)	(443,953)	(129,893)	29.3%
TOTAL REVENUE	3,913,615	3,907,292	6,323	0.2%

## APNIC SINIC

#### **Foreign Exchange Effects**

• Example

USD 10,000 received when rate is 0.66
Booked as AUD \$15,000

- Later converted into AUD at 0.75
  Actual value is AUD \$13,333
- Actual income is reduced by "realised" loss:
  - \$15,000 \$13,333 = (\$1666)
- During 2003, a large sum of USD was converted into AUD, due to falling rate
  - Resulted in large "foreign exchange loss"
  - This is a "reporting loss" rather than an "actual" loss.

## **Operating Surplus**

Operating Surplus (USD)	Actual 2003	Budget 2003	Budget $\Delta$	Budget ∆%
Exchange Rate (*)	0.6538	0.6502		0.6%
Total Revenue	3,913,61 5 3,815,48	3,907,291	6,323	0.2%
Total Expenses	2	3,905,477	(89,996)	-2.3%
OPERATING SURPLUS BEFORE INCOME TAX EXPENSE	98,133	1,814	96,319	
Income Tax Expense	36,398	0	36,398	0.0%
OPERATING SURPLUS AFTER INCOME TAX EXPENSE	61,735	1,814	59,921	

APNIC STANIC

#### **Financial Position**

Financial Position	Year-End 2003	Year-End 2002	Year-End ∆%
Exchange rate(*)	0.7521	0. 5676	32.5%
Current Assets	6,482,481	5,671,684	14.3%
Non-current Assets	2,303,904	1,062,875	116.8%
TOTAL ASSETS	8,786,384	6,734,559	30.5%
Total Liabilities	2,498,434	2,042,718	22.3%
Total Equity	6,287,950	4,691,841	34.0%
TOTAL LIABILITIES & EQUITY	8,786,384	6,734,559	30.5%
