Policy SIG

APNIC 18
Nadi, Fiji

pol-16-008

- Proposer to resubmit revised version of IXP proposal (prop-011-v001) dealing with remaining proposal elements, such as fee waiver (which was withdrawn during discussion), characteristics (which became ambiguous with withdrawal of fee portions), and combined IPv4 and IPv6 assignments (which were not fully discussed).

pol-16-008 (cont'd)

Update: Open. The proposal has not been resubmitted. To be followed up with proposer to see if this should remain open.

The proposer (Bill Woodcock) has been contacted, but there has been no reply to date.

pol-17-001

- Pending approval at each remaining stage of the policy proposal process, proposer to resubmit a modified version of the proposal (prop-013-v001) to the mailing list. The rewritten proposal will define multiple discreet networks and consider the HD ratio for sub-allocating address blocks.

pol-17-001 (cont'd)

Update: Open. Proposer has left MCI.
Secretariat is trying to
determine if MCI wish to
pursue this proposal.

pol-17-002

- Pending approval at each remaining stage of the policy proposal process, Secretariat to implement the proposal (prop-016-v001), with the modification that there is an added requirement for LIRs to plan to move some of their customers from IPv4 to IPv6 within two years.

pol-17-002 (cont'd)

Update: Completed. Closed.

pol-17-003

- Pending approval at each remaining stage of the policy proposal process, APNIC Secretariat to implement the proposal to permit allocation of IPv6 address space to closed networks (prop-015-v001).

Update: Completed. Closed.

pol-17-004

- APNIC Secretariat to edit the IPv6 guidelines document, post to the sig-policy mailing list for comments, and to publish after the review period.

Update: Completed. Closed.

pol-17-005

- Pending approval at each remaining stage of the policy proposal process, Secretariat to implement the proposal to reduce the minimum initial allocation size to /21 and to lower the criteria for an initial allocation to demonstrate an immediate need for a /23 and use of a /22 within one year (prop-014-v001).

pol-17-005 (cont'd)

Update: Completed. Closed.

pol-17-006

- Pending approval at each remaining stage of the policy proposal process, APNIC Secretariat to implement the proposal to recover unused address space (prop-017-v001).

Update: Open. Will be implemented 14
December 2004

pol-17-007

- Secretariat to call for volunteers for a new working group to review the current DSL/cable guidelines in the document "APNIC guidelines for IPv4 allocation and assignment requests".

Update: Completed. Closed.
