

CNNIC UPDATE

NIR SIG, 21th APNIC,Perth, Australia Edward Chen

MNIC has allocated 245B IPv4 ddresses, 168 members

statistical result on IP distribution

ember meeting and Feedback from our members

We have held 2 member meetings last year 6/2005 Beijing (CNNIC) 11/2005 Guangzhou (CNNIC/APNIC)

65 members, 100 delegates, 94 from CNNIC

member's members, 6 from APNIC Members, 88% are satisfied with our ip allocation work

1, New IP address block is not available for some website or network

Announce new IP block on CNNIC website when we receive APNIC notification

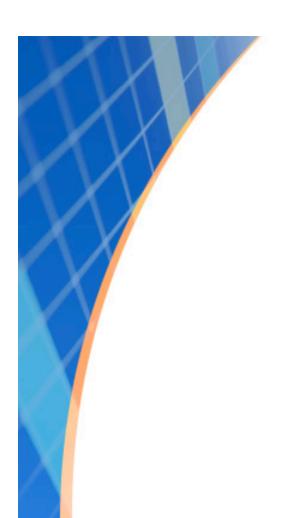

http://www.cnnic.cn/html/Dir/2005/04/18/2920.htm

2, Member's IP address was added on black addresses list ,member needs our help

Thank You!
