Priorities and initiatives

- Expanding APNIC's range of training and education
 - A more structured and responsive curriculum
 - Delivery of training in more APNIC member economies
 - Focus on understanding and best practice adoption
- Developing a blended delivery environment.
 - Integrating eLearning and other methodologies to provide a more accessible and comprehensive learning framework
- Fostering collaboration with educational and professional organisations.

Priorities and initiatives

- Building partnerships with members and associated groups to help advance Internet development and local learning
- Improving our feedback mechanisms
- Reviewing our fee structure and administrative procedures
- Encouraging course participants to continue their professional development.

Thank you !

Your feedback is important! Please contact us with any comments, requests or suggestions!!
